

Versatile, curious, and quick to adapt, I am seeking a 6-month End-of-Studies Engineering Internship starting March 2026.

EDUCATION

General Engineering Degree, MSc Creative Technology & Innovation Since 2020  
**ESILV - Graduate School of Engineering** Paris La Défense  
Focus: Programming, Electronics, Robotics, HCI, Computer Vision, Deep Learning, FabLab, Research  
Academic Exchange Program Feb. 2024 - Jun. 2024  
**HANYANG UNIVERSITY** Seoul, South Korea  
Coursework: Linear Algebra, Maths for Engineering, Data Analysis with Python (Pandas, Seaborn), Microeconomics

WORK EXPERIENCE

Computer Vision Drone Developer Intern Apr. 2025 - Sept. 2025 (5 months)  
**KNDS France (European leader in land defense)** Versailles Satory  
• Embedded vision system for UAV  
• Developed algorithms for image acquisition, processing, detection, tracking, and streaming  
Sales Advisor (Short-term Contract) Aug. 2023 - Oct. 2023 (2 months)  
**Lacoste Vallée Village** Marne-la-Vallée  
• Retail sales techniques  
• Provided multilingual customer service

SCHOOL PROJECTS

**Master 2 Creative Technology Projects** | Sept. 2025 - Present  
• **Mixed Reality FPV Drone:** Pilotage of an FPV drone in Mixed Reality (MR) using a Meta Quest headset  
• **Deep Learning Digit Classifier:** Designed a handwritten digit classifier (MNIST) using TinyGrad (MLP & CNN), exported via WebGPU, and deployed as an interactive web app  
• **Interactive 3D Scene Editor:** Developed a WebGPU-based 3D editor featuring real-time Ray Marching rendering, dynamic shader compilation, and a synchronized JavaScript UI  
**Master 1 Creative Technology Projects** | Sept. 2024 - Avr. 2025  
• **BUDD-E:** Developed a 6-axis 3D-printed interactive robotic arm. Integrated computer vision and voice recognition (Python/Raspberry Pi 4) with servo-motor control (C++/ESP32)  
• **Kickstarter - FLORYA:** Crowdfunding campaign and design of a low-tech leather essential oil diffuser  
• **Def’Innov Hackathon:** Designed a "cricket-style" tourniquet integrated into military uniforms  
**Formula Student - Vinci Ecodrive Association** | 2022-2023  
• CAD/CAM design of mechanical supports using **SolidWorks 3DX**  
• Hands-on manufacturing: CNC machining, manual lathe, laser cutting, and MIG welding

SKILLS

**Computer Vision**  
OpenCV, YOLO, Detection, Tracking, Visual Odometry  
**Hardware/Firmware**  
Arduino, Raspberry Pi, PCB Design, CAD, CAM, 3D Printing

COMPUTER SKILLS

**Software**  
KiCad, Solidworks, Fusion 360, Figma, Unity  
**Programming**  
Python, C++, C#, HTML, CSS, JavaScript  
Git/GitHub, Bash

LANGUAGES

**English**  
TOEFL B2  
**Spanish & Italian** B1  
**Chinese**  
HSK2 A2

ASSETS

**Soft Skills**  
Design Thinking, Sales, Leadership, Pitch & Talk, Stress Management, Teamworking

INTERESTS

**Travels**  
East & Southeast Asia, North America, Europe  
**Sports**  
MMA, Boxing  
**Music**  
Guitar
